Public Works **(1953) Department.**

Miscellaneous SERIES.

G.O. NO. 186

Dated 15th January 1953

FOR MYSORE STATE

[Despatch Abstract.]

IRRIGATION - South Kanara District - Puttur Taluk - Construction of a dam across the Kumaradhara river and improvements to tanks - Proposals dropped -Papers recorded.

Extract from the Memorandum of the President, Puttur Circle Congress Committee, Puttur S.K., dated 15th September 1949, to the Hon'ble Minister for Public Works, Government of Madras.

4349 F/49

xx xx xx

7. Kumardhara river which is a perrineal supply of water at a place called Siruthadka between Dolpady and Kunthur villages takes a drop and at that place the river bed is entirely of rocks. A dam across the said river at the said place will build up a large volume of water which will irrigate not only extensive areas of land on either side of the river but through canals cut on either sides, it is possible to irrigate and bring under cultivation vast lands of the following villages, i.e., Charvaka, Kaimana, Kudmar, Savanur, Narimogu, Sarve, Punchapady Kemminje and Puttur on one side and Kunthur, Alanka Perane, Ramakunja, Koila, and Hirebandady on the other side. The feasibility of tapping the said water as a source of water supply to Puttur Town also may be considered. We are told that a previous District Collector made a recommendation also in the matter a decade ago, which was however not pursued subsequently.

A 8. There are many neglected water tanks in our taluk which if well attended and repaired, will help in irrigating the neighbouring lands which are now lying fallow for want of water facilities.

xx xx xx

Extract of H.M.(P.W.)'s minutes.

B "Secy. P.W.

May be examined. Road development in this areas has to be given a priority.

C.No 4066 J/49
24.9.49

M.B./16-9."

---

6. Protected water supply is an imperative necessity for Puttur and in this connection the feasibility of opening a diversion canal from Kumardhara river upto Puttur may be investigated which will indirectly help irrigation of the neighbouring lands along the route.

No. 5388/49-P-7 dated 8th Jan.51.

Sir,

Sub:- Irrigation- South Kanara district- Puthur Taluk- Kumaradhara river- construction of a dam- petition-

Ref:- Government Memo No.4066 J/49-1 d/27-9-49- p 3 ans
-do- 4066 J/49-2 d/1-11-49 p 4 ans

With reference to the request of the President, Puthur Circle Congress Committee, South Kanara District, for damming the Kumaradhara river, and excavating two canals on either side to bring under cultivation vast lands in the neighbouring villages, the Superintending Engineer reports that the proposal will not be commensurate with the benefits that will accrue. It is reported that the cost of the anicut alone will be about 4 lakhs and in addition canals for 10 miles length in deep cutting and in hilly tract with too many cross masonry works will be necessary and this will further swell up the cost of the scheme. He therefore considers that the scheme is not worth pursuing further and may be dropped. I agree with him. p 3 ans

Regarding para 8 of the petition forwarded in Government Memo first cited above, the Superintending Engineer's report is awaited.

******

Sub:- Irrigation - South Kanara District - Construction of a dam across Kumaradhary river and Netravathy River.

. . .

In continuation of my D.O. No. 1689 I dated 15/20-9-51, the Executive Engineer, South Kanara Division has since reported that due to continued presence of water in the river Netravathi it had not been possible to complete the investigation of the proposal to construct a dam across the Netravathi till now. He has since promised to submit the plans and preliminary estimates by the end of October 1951. If so received the plans and estimate will be scrutinised and submitted to you by the middle of December 1951.

A

As regards the proposal for a dam across the Kumaradhary river it has already been reported in this office No. 1749 I dated 20-9-50 recommending the dropping of the scheme.

In respect of repairs to neglected tanks the Executive Engineer prepared an estimate for repairs to the Urumbi tank in Kunnathur village. This work was inspected by me and gave instructions to revise the estimate. This involved some additional field work and the Executive Engineer reports that it had not been possible to complete the outdoor work due to heavy rains etc. He promised to submit the estimate by the end of September 51. It is awaited. I am instructing him to submit the estimate before the end of October at the latest. If the Executive Engineer adheres to the date it will be submitted to you by the end of November. The other tanks in the locality are reported to be small ones that could be investigated by the Minor Irrigation staff. The Executive Engineer has sent the concerned papers to the Collector for further action.

No.5968/51 B-2 dated 17th November 1952.

Sir,

Sub:-Irrigation - South Kanara - Puthur Taluk - Kumaradhara River - Construction of a dam and other requests.

Ref:-Govt. P.W.D. Memo No.4066-J/49_1 dated 27-9-49. and My letter No.5388/49 B-7 dated 9-1-1951.

With reference to para 8 of the Government Memo read above it is reported by the Executive Engineer, South Kanara division that the Secretary, Puthur Circle Congress Committee informed the Sub-divisional Officer, G.M.F. Sub-division that the tank for which improvements were asked for in the petition was 'URUMBI TANK'. The Superintending Engineer Coimbatore has submitted plans and estimate amounting to Rs.1,55,000/- for works or Rs.2,01,573/- including Direct and Indirect charges for the improvements to Koddathakere alias Urumbi tank. As the cost of the proposed scheme is far too high when compared to the ayacut to be benefited and the revenue of Rs.1278 to be derived, the above proposal has been dropped.

P.W.D.(J.I.).

C.No.4066/49.

Sub:-Irrigation--S.Kanara--Puthur taluk--Construction of a dam across the Kumaradhara river and improvement to tanks.

Ref:-From the President, Puthur Circle Congress Committee, Memorandum dated 15-9-1949.
Government Memo.No.4066 J/49-1 dated 27-9-1949.
From the C.E.(I) Ref. No.5388/49.B.7. dated 9-1-1951.
From the C.E.(I), Ref.No.5968/51.B.2. dated 17-11-1952.

"Secretary, P.W.
May be examined.
M.B./16.9.

The file relates to a memorandum submitted by the President, Puthur Circle Congress Committee in September 1949, in which, among others, he requested that a dam might be constructed across the Kumaradhara river at Piruthadka in Puttur taluk, South Kanara Dt. so as to irrigate lands in several villages on either side of the river. He also requested that the several neglected tanks in the taluk might also be repaired.

The matter was referred to the C.E.(I) for report. As regards the construction of a dam across Kumaradhara river and excavation of two canals on either side, the C.E.(I) has reported that the cost of the anicut alone would come to about Rs.4/- lakhs, and in addition, huge expenditure will have to be incurred on the canals to be excavated for a length of about 20 miles in deep cutting and in hilly tracts, with too many cross masonry works. He considered the cost of the scheme not commensurate with the benefit that would accrue and therefore recommended that it might be dropped.

As regards the request for the repairs of tanks the C.E.(I) has reported that the repairs asked for was for one 'Urumbi tank' and that the S.E. (Coimbatore Circle) submitted Plans and Estimates amounting to Rs.2,01,573/- including direct

and indirect charges, for the work. As the cost of the scheme was far too high when compared to the ayacut to be benefited and the revenue of Rs.1278/- to be derived, the proposals has been dropped by him. It is also reported that as regards the repairs to smaller tanks which are in charge of the Rev.Dept. the connected papers have been forwarded to the Collector of South Kanara for further action.

In the above circumstances, no further action seems called for in the matter. It does not seem necessary to send a reply to the petitioner at this distance of time. The papers may be ~~recovered.~~ recorded. Revenue may see.
